IN MEMORIAM

Charlotte Lewis

With deep sadness, we announce the passing of Charlotte Lewis, past Vice-President, manager and co-owner of the House of Onyx, Inc. on February 16, 2019. Charlotte had been previously diagnosed with a rare form of dementia and left the House of Onyx on November 5, 2014. She had been cared for by her sisters, Sandy and Kathy and niece, Jocelyn, in her hometown of Smilax, Kentucky since her departure from the House of Onyx.

Charlotte graduated from Leslie County High School in 1965 and from Union College in 1969. She was commissioned as a Kentucky Colonel, a member of the Greenville Republican Women's Club and various other clubs and organizations.

Charlotte, who was considered the matriarch of the House of Onyx, began her distinguished career here in 1973 as office manager of the company. She later served as Vice President and was Co-Owner of the company. She continued her career until 2014 when illness forced her to retire. The House of Onyx was the joy of her life; she would rather be working than doing anything leisure. She was an asset to the House of Onyx and dedicated her life to Fred and Shirley Rowe and the staff of House of Onyx. Charlotte also enjoyed reading, watching movies and quilt collecting, but her greatest joy came from working with merchandise and clients.

Charlotte was a very wise, kind and generous person and liked to stay in the background. She loved to share her life experiences through travel and politics with those who knew her. She set an example for all who knew or worked under her.

Charlotte is survived by three sisters, Sandy, Kathy and Loretta, a niece, four nephews and several great nieces and great nephews and the staff of House of Onyx which she considered family.

EMERALD

Emerald is the most widely known member of the Beryl family of gemstones. Emerald owes its fine green color to elemental chromium replacement in its structure. Gem quality Emeralds are found most notably in Colombia, Brazil and Zambia. Like other Beryl, Emerald has a hardness of 7.5-8. Emerald may be more brittle than other Beryl due to the numerous fluid inclusions found inside. Care in wearing and cleaning should be practiced with Emerald. Emerald is the birthstone for May.

CLOSEOUT EMERALD

Several years ago we sourced and supplied a large multi-national corporation with low quality, but genuine, Emeralds for their promotions. We have a small quantity of these low quality faceted Emerald remaining. These Emeralds are light to medium green color with little to no clarity. We are closing out our remaining stock of these gems at very special prices. The stones are primarily oval in shape. Order quickly as quantities are limited to inventory on hand.

ALEXANDRITE

Alexandrite is a phenomenal variety of Chrysoberyl. At its best, Alexandrite has a color change from purplish-red under incandescent light to bluish-green in daylight. Alexandrite is named for Tsar Alexander of Russia, where it was initially discovered. Other sources of Alexandrite are Brazil and Sri Lanka. Alexandrite is one of the birthstone's for June and is a well-known and rare gem. It has a hardness of 8.5 and is an excellent choice for jewelry.

SPHENE JEWELRY

Sphene is a gemstone also known by the name of Titanite. A primarily green stone, it has exceptional fire. A beautiful dispersion of flashing colors ranging from red, orange, golden yellow, bright green and brown. It reminds us of late summer and early fall, all the colors of the seasons brought together in one unique display from Mother Nature. Sphene has a Mohs hardness of 5 -5.5.

INTARSIA - LESS 75%

Intarsia by Jim Kaufmann

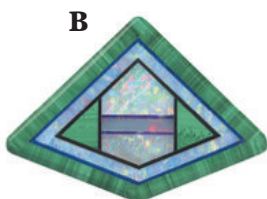

The making of Intarsia is an arduous process. Small pieces of gem materials are inlaid together to form patterns or mosaics and set into a gemstone base. These works of art are one-of-a-kind pieces; no two are ever exactly the same. Our Intarsia pieces were crafted by Jim Kaufmann using only the best materials and precision to every detail. Each piece of Intarsia is signed and numbered by the artist.
