## EMERALD IS THE BIRTHSTONE FOR MAY

This is the perfect opportunity for you to buy that special Emerald that you have always dreamed of owning. We carry a large assortment of Emeralds from South America and Africa in our inventory. Most are in the popular emerald/octagon shape, a rectangle with faceted corners. Emerald is the Birthstone for May and remains a popular gemstone for jewelry designs. If you require assistance in selecting an Emerald or a setting, please contact one of my gemologists, Renee and Jeffrey.

# Intarsia - 40% OFF

Intarsia is the centuries old skill of combining gem materials into works of art. Each piece of stone is precisely cut and fitted for inlay into, or overlay of, another gemstone. Once assembled, the complete piece is polished to a high finish. Each Intarsia by Jim Kaufmann is made entirely by hand, numbered and signed by the artist.

## 2014 - THE YEAR OF THE HORSE

On the Chinese Zodiac calendar, we are now into the Year of the Horse. The year runs from January 31, 2014 through February 18, 2015. In the Chinese culture, the horse is a symbol of nobility, class, speed and perseverance. Those born in the Year of the Horse are said to be intelligent, cunning, trustworthy, and friendly and like to be surrounded by family and friends without relying on them for much. They are patient to a point, but can be hot tempered if pushed too far.

Kentuckians are horse lovers. We love them for their beauty and other characteristics. At House of Onyx, we offer horse jewelry, carved boxes and gemstone horse sculptures. Our gemstone horse sculptures are very well detailed and excellent quality.

## CARNELIAN AGATE THIN SLICES 4 - 5 INCHES

Thin Agate slices are not as common as the thick slabs. It is more difficult for the cutters to produce the thinner slices since breakage is higher. Our Carnelian Agate slices average 5mm or .20" in thickness. When held to light, the beautiful geometric patterns are evident. Each slice is unique with translucent and opaque areas in tan, butterscotch and rust red. Average size is 4"x5.75"

## COMPLETE FOSSIL NAUTILUS

The Nautilus is part of the cephalopod class of mollusks. It is the only living member of the subclass Nautilidae. These fossil Nautiluses from Madagascar are complete or whole, ranging from 5 pounds to smaller hand size pieces. Although each polished fossil Nautilus is unique in color, all are in shades of tan and brown. Some have red iridescent flashes.

## AMMONITE SCULPTURES

Artists in Morocco use locally sourced Ammonite Fossils for their sculptures. The Ammonite Fossils are approximately 200–400 million years old. We selected two sculptures in limited quantities. Each stands upright to highlight a polished Ammonite fossil. These make wonderful gifts for that hard-to-buy-for friend.

Our freeform stone sculpture is mounted with one polished 2 inch Ammonite fossil and other fossil remains. These nine inch tall plaques feature both polished and contrasting rough hewn stone surfaces.

IGM-AM-SCP-52 . . . . . **\$52.00/ea.**

A single polished Ammonite fossil measuring 4 inches is mounted in a sculpted stone easel. The highly polished fossil contrasts nicely with the rough hewn stone.

**COMPLETE FOSSIL  
AMMONITE**

These fossil Ammonites from Madagascar flourished during the upper Cretaceous period approximately 130 million years ago. All matrix has been removed from the Ammonites to reveal the interesting coiled pattern on both sides. Two sizes are available.

**MOROCCAN TRILOBITES**

Trilobites are extinct marine arthropods that date from the mid-Cambrian through the Permian periods, 230 to 550 million years ago!

Our Trilobites from beneath the Sahara Desert in Morocco in northern Africa are preserved in their natural matrix. They have been cleaned, darkened to display the details of the shells and repaired where necessary to preserve the fossils.
